Pre-Configured Solution 2 – Website / CMS / E-Commerce

Our pre-configured solutions are suitable if you are on a tight budget but need a full featured CMS website.

They require that you have your branding and logos on hand, and a plan for the website structure.

Prices include set up, installation and a training manual but no extensive concept development or support.

Additional design work, concept development, training, support and web hosting are available if required for an extra charge.

	Community / Individual / Non-Profit Org	Business / Corporate
